## Full finishes offer

## BASIC

- 1** The preliminary price of furnishing an apartment of 1 m<sup>2</sup> is calculated on the basis of the lowest price of finishing materials offered in this package. If all materials are selected, the estimate will be respectively adjusted.
- 2** Full finishes prices are provided considering the design plan of the apartment, with the number and arrangement of electric and lighting points provided for in the technical design. If necessary, the number and arrangement of power and lighting points may be changed. The changes are directly coordinated with the company that carries out the finishing works and their price is calculated on a case-by-case basis. The offer covers only the interior lighting of the sanitary unit room.
- 3** The final price of full finishes is calculated on coordination of all finishing materials, changes and additional requests, if any, with the company carrying that carries out the finishing works.
- 4** Jomanto Parkas, UAB, reserves the right to use other materials and mechanisms provided that in terms of their technical and qualitative characteristics they are not inferior or are better than those presented in the finish offer.
- 5** Please note that the actual colour and texture of materials may differ from those shown in the finishes offer.
